
AVVISO AI PERFORATORI DEL MARE

Postato da solar_flare - 2008/04/23 17:08

La Mediterranean Oil and Gas ha nel suo esecutivo una serie di ex tizi dell'Agip/Saipem/ENI...

Loro dicono a chiare lettere che intendono diventare imporanti con Ombrina Mare, che e' il loro primo target.

Scrivi qui:

http://www.lse.co.uk/SharePrice.asp?shareprice=MOG&share=med_oil_&_gas

e' il sito degli investitori (ce ne sono anche altri) vedrai i commenti - mettine uno pure tu.

Se vuoi puoi scrivere cosi:

The Ombrina Mare oil rig is being built only 2 kilometers away from shore and will devastate our sea.

Together with MOG, Petroceltic and ENI have plans to come and pollute our sea and our land.

We live on tourism, on the fish and on the agriculture industry, and as a people we are actively seeking to stop the oil industry from killing us.

The local government has already passed a moratorium on onshore refinery operations, and this will certainly impact Ombrina Mare's logistics capacity.

They planned to use the Miglianico oil field, but it is currently halted.

We will take action also against MOG and Petroceltic, so not only is it morally wrong to invest in this company, it is also financially irresponsible. Divest.
